Wallace, S. L., 369
Whitaker, J. N., 111
Wright, V., 55

SUBJECT INDEX

Acne, Catrix cream for, 295
Acromegaly
  articular cartilage growth in, 196
  osteoarthrosis and, 203
ACTH, in muscle diseases, 134–135
Addison's disease, 91
Alabama, systemic lupus erythematosus in, 4–5, 9, 13, 20, 23
Alcohol
  limb pain and, 139
  palmar aponeurosis and, 165
Alcoholic cirrhosis, Dupuytren's contracture and, 165, 169
Alcoholism, Reiter's disease and, 278
Alkaptonuria, osteoarthrosis and, 201
Amebic dysentery, Reiter's disease and, 272
American Rheumatism Association, 55
Amyloidosis, gastrointestinal, 64
Amyotrophic lateral sclerosis, 138
Anemia, autoimmune hemolytic, 317
Ankle, synovial cysts of, 338
Ankylosing spondylitis
  heart disease and, 265–268
  treatment for, 365–366
Ankylosing spondylopathy, Reiter's disease and, 260–262
Aortitis, Reiter's disease and, 265–266
Aponeurosis, palmar, 155–156
Arteriosclerosis, Dupuytren's contracture and, 166–167
Arthralgia, 36
  in Whipple's disease, 82–87
Arthritic fingers, "tingling" feeling in, 292
Arthritis
  bracing in, 358
  case studies in, 360–366
Arthritis (*Continued*)
  cervical strain in, 360–361
  contraindications in, 352
  education in, 358–359
  exercise in, 354–356, 360
  functional loss in, 350
  gonorrheal, 363
  gout and, 363
  health care team in, 351
  heat and cold in, 352
  hydrotherapy in, 353
  immobilization in, 357–358
  inflammatory, 200, 339
  joint involvement in, 350
  lumbosacral strain in, 361
  mobility in, 356
  occupational therapy in, 356
  pain control in, 349
  paraffin in, 352–353
  patient's attitude in, 351
  periarthritis shoulder in, 361–362
  persistence and, 349–350
  physical management and rehabilitation in, 349–366
  psoriatic, 55–74
  Reiter's disease and, 253–254, 274
  rest in, 356–357
  rheumatoid, 219–246
  septic, acute elbow, 362–363
  social and psychological considerations in, 359
  strengthening exercises in, 355–356, 360
  stretching exercises in, 354–355, 360
  suppurative, 204
  systemic manifestations in, 350–351
  therapeutic tools in, 351–358
  therapy program in, 359–360

  periarthritis shoulder in, 361–362
  persistence and, 349–350
  physical management and rehabilitation in, 349–366
  psoriatic, 55–74
  Reiter's disease and, 253–254, 274
  rest in, 356–357
  rheumatoid, 219–246
  septic, acute elbow, 362–363
  social and psychological considerations in, 359
  strengthening exercises in, 355–356, 360
  stretching exercises in, 354–355, 360
  suppurative, 204
  systemic manifestations in, 350–351
  therapeutic tools in, 351–358
  therapy program in, 359–360

Arthritis (*Continued*)
traction in, 353–354
Whipple's disease in, 82–87
wrist stabilization in, 357
Arthritis and Rheumatism Council, England, 185–186
Arthritis mutilans, 73
Arthritis psoriatica, 55
Arthropatia psoriatica, 55
Arthrosis deformans, 166
Articular cartilage
age and, 197
bronchial abnormalities and, 195–196
chondroitin sulfate in, 203
protein impermeability in, 205
regeneration or repair in, 196–197
Atrioventricular block, in Reiter's disease, 269–270
Autoallergic diseases, Catrix-S in, 298–310
Autoimmune hemolytic anemia, 317
Azathioprine, in polymyositis, 149

Baker's cyst, 323
Balanitis, 256, 364
Behçet's syndrome, 64
Big toe, psoriatic arthritis of, 58
Birth order, in systemic lupus erythematosus, 40
Blacks, predisposition to systemic lupus erythematosus, 14–20
Bone cysts
juxta-articular, 343
subchondral, 343
Bovine cartilage preparations, biological activity of, 287–320
Bursa
gastrocnemiosemimembranosus, 329
semimembranosus, 331
in synovial cysts, 326–327, 330–331
Butterfly rash, 4, 36

Calcium pyrophosphate dihydrate crystal deposition, 201
Calf cysts
popliteal, 330–332
treatment of, 338
Cartilage preparations, wound-healing capacity of, 287
see also Bovine cartilage preparations
Catrix (bovine cartilage powder), 288
Catrix cream, 288
for acne, 295
for dry socket, 295–297
in inflammations and skin allergies, 293–298
for mandibular alveolitis, 295–296
for poison oak and poison ivy, 294–295
in pruritus ani, 293
Catrix preparations, in chronic inflammatory conditions, 289–298
Catrix-S
in progressive systemic sclerosis, 317–319
in psoriasis, 298–310
in regional enteritis, 315–317
in rheumatoid arthritis, 310–312
in ulcerative colitis, 312–316
Catrix-S injection therapy
defined, 288
for osteoarthritis, 289–293
Catrix suppositories, 289
for hemorrhoids and fissure-in-ano, 297–298
Cellular inclusions, in systemic lupus erythematosus, 43–45
Charcot joints, osteoarthrosis and, 199–200
Chondroitin sulfate, in articular cartilage, 203
Chondromalacia, osteoarthrosis and, 197
Clostridium perfringens, 72
Cyclophosphamide, in polymyositis, 149
Colchicine, 369–378
in blood and tissues, 373
clinical use of, 369–371
diagnostic use of, 370–372
gastrointestinal effects of, 371–372
gonadal side effects of, 372
in gout, 369–370
mechanism of action in, 376–377
metabolism of, 373–374
phagocytosis and, 376
structure–function relationships in, 375–376
toxicity of, 371–373
Colchicum autumnale, 369
Colitis, ulcerative, 312–316
Collagenase
in osteoarthrosis, 205
rheumatoid and osteoarthritic synovial cells and, 377
Collagen metabolism, Dupuytren's contracture and, 166
Collars, in rheumatoid arthritis, 358
Conjunctivitis, Reiter's disease and, 258
Corticosteroid therapy
aseptic necrosis and, 203
in psoriatic arthritis, 73–74
in systemic lupus erythematosus, 113–125
Coxsakie B encephalomyocarditis, 44
Coxsackie virus, 144
CPPD crystal deposition disease, 201
Cystic Heberden's nodes, 334–335

Diabetes mellitus
Dupuytren's contracture and, 166
limb pain in, 139
osteoarthrosis and, 203–204

Diabetic amyotrophy, 138
Diarrhea
  colchicine and, 371
  in Reiter's disease, 264–265, 278
  Shigella and, 265
Discoid lupus, 4
  see also Systemic lupus erythematosus
Distal interphalangeal joints
  arthritis of, 56
  erosion of in psoriatic arthritis, 58–59, 68
DNA synthesis, in osteoarthrosis, 198
Drug sensitivity, muscle pain and, 139
Dry socket, 295–297
Dupuytren's contracture, 155–174
  alcoholic cirrhosis and, 165
  alcoholism and, 169
  chemical changes in, 162
  constitutional theories of, 164–165
  diabetes and, 166
  differential diagnosis in, 158–159
  electron microscope studies in, 161
  etiology of, 162–167
  fasciotomy in, 170–172
  heredity and, 165
  incidence of, 156–157
  induratio penis plastica in, 168
  metabolic dysfunction in, 165–166
  neurogenic origin of, 163–164
  nonsurgical treatment in, 169–170
  pathology in, 159–162
  plantar aponeurosis and, 167–168
  surgical treatment in, 170–173
  symptomatology in, 157–158
  traumatic origin of, 162–163
  treatment in, 168–173
  Vater-Pacini corpuscles in, 161
Dysentery, 253
Dystrophies, in muscle diseases, 145–146

Elbow joint
  septic arthritis of, 362–363
  synovectomy for, 239
Electromyography, in muscle diseases, 129–130
Electronmicroscopy, of muscle tissue, 131
Enteritis, Reiter's disease and, 253–254
Enzymes, in osteoarthrosis, 204–206
Epilepsy, Dupuytren's contracture in, 158
Epileptic seizures, muscle disease and, 130
Erythroderma, Catrix-S in, 302
Escherichia coli, 319
Ethnic differences, in systemic lupus erythematosus, 26–32
Exercise, in arthritis, 354–356

Fabry's disease, 139
Families, rheumatoid factors in, 177–186
Family and twin studies, in systemic lupus erythematosus, 36–39
Fasciotomy, in Dupuytren's contracture, 170–172
Feet
  synovectomy in, 240
  synovial cysts in, 338
Flexner-Shigella epidemic, Finland, 274
Fusaria sporotrichiella, 202

Gastrointestinal amyloidosis, 64
Geodes, 343–346
  defined, 323
  in rheumatoid arthritis, 343–346
Glomerular nephritis, 44
Gold-salt nephropathy, 44
Golgi's complex, 221–223
Gonorrhea
  Reiter's disease and, 258
  septic arthritis and, 362
Gonorrheal arthritis, 363
Gout
  colchicine in, 369–370
  osteoarthrosis and, 201
  pseudo, 201
  Reiter's disease and, 259
  treatment of, 363

Heart disease, of ankylosing spondylitis, 265–268
Heberden's nodes, cystic, 334–335
Hemochromatosis, osteoarthrosis and, 200–201
Hemophilia, in osteoarthrosis, 200
Hemorrhoids, Catrix suppositories for, 297–298
Hip
  osteoarthrosis of, 196
  synovial cysts of, 336–337
Hip dysplasia, in osteoarthrosis, 199
Hip joint, synovectomy of, 243
Histocompatibility antigens, in systemic lupus erythematosus, 40–43
Hyaluronidase, in osteoarthrosis, 206
Hydrotherapy, in arthritis, 353
Hydroxylysine, in osteoarthrosis, 197
Hydroxyproline, in osteoarthrosis, 197
Hyperadrenalism, muscle diseases and, 134
Hypergammaglobulinemia
  in progressive systemic sclerosis, 317
  in systemic lupus erythematosus, 28, 36
Hyperkeratosis, 254
Hyperthyroidism, in muscle diseases, 133–134
Hyperuricemia, 201
  in psoriatic arthritis, 66
Hypocalcemia, muscle diseases and, 134

Idiopathic polymyositis, 141–142
  immune mechanisms in, 143–147
  treatment of, 148–150

Immobilization, in arthritis, 357–358
Immune response, in systemic lupus erythematosus, 26–32
Induratio penis plastica, Dupuytren's contracture and, 168
Inflammatory arthritis
  in osteoarthrosis, 200
  synovial rupture in, 339–343
Inflammatory conditions, Catrix preparations in, 289–298
Instant center pathway, in osteoarthrosis, 209

Joint lubrication, in osteoarthrosis, 192–193
Juvenile polyarthritis, rheumatoid factors in, 185
Juvenile rheumatoid arthritis, synovectomy in, 237
Juxta-articular bone cysts
  defined, 323
  synovial rupture and, 340
Juxta-articular bone lesions, 345

Kashin–Beck disease, 202
Keratoderma blenorrhagica, 70, 253–258
Knee joint
  popliteal cysts in, 329–330
  synovectomy of, 240–243
  synovial rupture at, 342
  temperature reaction in, 232–233
Koebner effect, 72
Kugelberg-Welander syndrome, 138

Labyrinthitis, 274
Lambert–Eaton syndrome, 130
Latex test, in rheumatoid factors, 178–179
Lathyrism, 201–202
Lathyrus odoratus, 201–202
LE, *see* Lupus erythematosus
Legg–Perthes disease, 199
LE test, 7–11
Leukemia, systemic lupus erythematosus and, 4
Leukocytosis, 66
Leukocytes, colchicine and, 373
Leukopenia, 4
Limb-girdle dystrophy, 146
Los Angeles General Hospital, 7
Lumbosacral strain, 361
Lupus erythematosus
  cell test in, 7–8
  epidemiology of, 1–50
  see also Systemic lupus erythematosus
Lymphadenopathy, Whipple's disease and, 79
Lymphocytes, muscle disease and, 145

McArdle's syndrome, 130, 137–138
Mallory's aortitis, 265–266
Mandibular alveolitis, Catrix cream for, 295–297
Mantoux reaction, to BCG vaccine, in systemic lupus erythematosus, 30–32
Marie-Strümpell arthritis, 87, 91
Mayo Clinic, Rochester, Minn., 10
Mesenchymatosis, 219
  see also Rheumatoid arthritis
Metatarsal phalangeal joints, in psoriatic arthritis, 59
Methotrexate
  in polymyositis, 149
  in psoriasis, 306–308
Morquio's syndrome, 201
Mucopolysaccharide fraction, changes in, 197
Mucopolysaccharide metabolism, in osteoarthrosis, 196
Muscle-cell degeneration–regeneration cycle, 147–148
Muscle diseases
  biopsy in, 130–132
  connective-tissue diseases and, 135–136
  degeneration–regeneration cycle in, 147–148
  differential diagnosis and work-up as to cause, 136–137
  dystrophies in, 145–146
  electromyography in, 129–130
  hypercalcemia and hypocalcemia in, 134
  hyperthyroidism and, 133–134
  laboratory testing in, 129–130
  lymphocytes in, 145
  McArdle's syndrome in, 130, 137–138
  metabolic abnormalities in, 133–134
  neoplasms in, 134–135, 137
  nonspecificity of biopsy appearances in, 140–141
  pain in, 138–139
  pyogenic infection in, 138
  rheumatic symptoms in, 141–142
  in rheumatology, 127–150
  sporadic dystrophy and, 133
  viruses in, 144
  weakness in, 138
Muscle reaction
  cause of, 147–148
  clinical classification of muscle disease and, 132–140
  experimental models in study of, 142–143
  nonfamilial causes of, 133–136
  toxins in, 134
Myoglobinuria, 127
Myopathy
  clinical classification of causation in, 132
  clinical recognition of, 127–129
  patient classification in, 128
  vitamin E deficiency in, 144
  see also Muscle diseases

Myotonia, 130
Myxoviruses, 144

Nail disease, in psoriatic arthritis, 62–64
Nail pitting, 61
National Institute for Medical Research, 178
Neisseria gonorrhoea, 362
Neoplasms, in muscle disease, 134–135, 137
Neurogenic effects, in Dupuytren's contracture, 163–164
New York City, systemic lupus erythematosus in, 11–20, 23–26, 32–34
New York City Health Department, 25

Obesity, osteoarthrosis and, 202
Occupational therapy, in arthritis, 356
Onycholysis, in psoriatic arthritis, 62
Organic brain syndrome, in systemic lupus erythematosus, 101
Osteoarthritis, 189
  Catrix-S injection therapy for, 289–293
Osteoarthrosis
  age and, 197–198
  alkaptonuria and, 201
  articular cartilage abnormalities in, 195–196
  cartilage load in, 206
  collagenase in, 205
  CPPD crystal disease and, 201
  defined, 189
  destructive enzymes in, 204–206
  diabetes and, 203–204
  DNA synthesis and, 198
  drug therapy in, 197
  epidemiology of, 189–191
  etiology and pathogenesis of, 189–209
  extrinsic and intrinsic forces in, 207–208
  genetic factors in, 204
  hemochromatosis in, 200–201
  hemophilia and, 200
  of hip, 197, 199
  hip dysplasia in, 199
  hyaluronidase and, 206
  inflammatory arthritis and, 200
  instant center pathway and, 209
  ionic environmental factors in, 193
  joint abnormalities in, 198–200
  joint lubrication in, 192
  lathyrism and, 201–202
  Legg–Perthes disease in, 199
  local predisposing causes in, 198–200
  mucopolysaccharide metabolism in, 196
  nutritional factors in, 202
  obesity and, 202
  osteophyte formation in, 194–195
  pain in, 191–192
  pathology of, 193–195
Osteoarthrosis (*Continued*)
  physical factors in, 206–209
  primary and secondary, 189
  remodeling in, 208–209
  rheumatic symptoms in, 191
  sex hormones in, 203
  slipped capital femoral epiphyses and, 199
  spondyloepiphyseal dysplasia and, 201
  synovial fluid in, 193
  synovitis in, 191–192
  systemic predisposing abnormalities in, 200–204
  vascular influences in, 198

Palmar aponeurosis, 159, 162
  alcoholism and, 165
  anatomy and function of, 155–156
  see also Dupuytren's contracture
Paraffin, in arthritis, 352
Paramyxoviruses, systemic lupus erythematosus and, 44
Parkinson's disease, 278
Penis, induration of, 168
Peyronie's disease, 168
Phagocytosis, colchicine and, 376
Phalangeal osteolysis, in psoriatic arthritis, 67
Phalanges, whittling of in psoriatic arthritis, 64–65
Plantar aponeurosis, contracture of, 167–168
Plasminogen, in osteoarthrosis, 206
Poison oak or ivy, Catrix cream for, 294–295
Polyarthralgia, 4
Polyarthritis, 4, 86
  defined, 56
  inflammatory, 56
  muscle diseases and, 141–142
  Reiter's disease and, 258
Polymyositis
  cytotoxic agents in, 149
  idiopathic, 127, 141–147
  muscle pain in, 127
Popliteal cysts, 329–330
  etiology of, 332
  symptoms and signs in, 331–333
  treatment of, 338
Pregnancy, systemic lupus erythematosus and, 34–36
Presbyterian Hospital, New York City, 7
Progressive systemic sclerosis, 317–319
Prostaglandins, in osteoarthrosis, 191
Proximal interphalangeal joints, psoriatic arthritis in, 58
Pruritus ani, Catrix cream for, 293
Pseudo gout, 201
Psoriagen elution, 308
Psoriacin ointments, in psoriasis, 289, 304–309

Psoriasis
atrophic arthritis and, 56
Catrix-S in, 298–310
methotrexate in, 306–308
Psoriacin ointments in, 289, 304–309
rheumatoid arthritis and, 56–57
topical therapy in, 309–310
Psoriasis arthropathia, 55
Psoriatic arthritis, 55–74
age at onset of, 58
clinical evidence for, 57–64
corticosteroid therapy in, 73–74
cupping of phalanges in, 65–66
defined, 56
diagnostic problems in, 69–71
epidemiological evidence for, 56–57
etiology and pathogenesis of, 71–72
evidence for, 56–69
genetic and familial aspects of, 71–72
historical background in, 55
hyperuricemia in, 66
immunology in, 66
laboratory findings and pathology in, 66–69
nail pitting and ridging in, 61
onycholysis in, 62
phalangeal osteolysis in, 66
radiological evidence of, 64–66
Reiter's disease and, 64, 70
sausage digits in, 58–59
sex ratio in, 57–58
surgical implications in, 73
terminology in, 55
treatment in, 72–73
whittling of phalanges in, 64–65
Psoriatic arthropathy, 55
Psoriatic nail dystrophy, 61–62
Psoriatic spondylitis, 60
Psychosis, in systemic lupus erythematosus, 95
Puerto Ricans, susceptibility of to systemic lupus erythematosus, 20–23, 32–34
Pyogenic infection, muscle disease and, 138
Pyomyositis, tropical, 138

Raynaud's disease, 4, 141–143
Reiter's disease, 45–46, 64, 253–283
ankylosing spondylopathy, 260–262
balanitis and, 256
cardiac involvement in, 265–271
case histories in, 279–283
central nervous involvement in, 273–274
diarrhea in, 264–265, 278–279
feet deformity in, 259
genetic factor in, 264–265
gonorrhea and, 258
historical review of, 253–265
etiopathogenesis of, 263–265
Reiter's disease (*Continued*)
eye involvement in, 258
immunopathology in, 265
intermediate and late course in, 258–260
keratodermia blennorrhagica and, 253–258
mouth lesions of, 257
neurologic involvement in, 271–279
neuropsychiatric signs in, 275–279
peripheral nervous system involvement in, 271–273
postdysentery, 254
psoriatic arthritis and, 70
psychic problems in, 274
Shigella in, 264–265
systemic lupus erythematosus and, 279
therapy in, 265
treatment of, 363–364
venereal, 254
Rest, in arthritis, 356–357
Rheumatic diathesis, Dupuytren's contracture and, 166
Rheumatoid arthritis
bracing in, 358
bursae in, 326
Catrix-S in, 310–313
colchicine therapy in, 370–371
defined, 219
geodes in, 343–346
of hands, 364–365
iron deposits in, 234
pathophysiology of, 228
psoriasis and, 56–57
psoriatic arthritis and, 66, 73–74
rheumatoid factors in, 177
synovectomy in, 219–246
synovial anatomy in, 224–228
synovial and popliteal cysts in, 330, 337
synovial rupture in, 337, 341–342
synovial tissue and, 230
systemic lupus erythematosus and, 10, 44–45
villi in, 224–225
of wrists, 364–365
Rheumatoid changes
in elbow joint, 239
in foot, 240
in hip joint, 243
in shoulder joint, 239–240
in wrist, 238–239
Rheumatoid factors
in families, 177–186
hospital patients with, 182–183
juvenile polyarthritis and, 185
latex test and, 178–179
population samples and, 179–182
prevalence of in population, 179
rare connective-tissue diseases in, 186

Rheumatoid factors (*Continued*)
standardization of, 178–179
systemic lupus erythematosus and, 185
twin surveys and, 183–185
Rheumatoid joints, temperature reaction in, 232
Rheumatology, muscle diseases in, 127–150
Ribonucleic acid, in systemic lupus erythematosus, 44
Rochester, Minn., systemic lupus erythematosus in, 9–11, 13
Rumalon, in osteoarthrosis, 197

Sacro-iliitis, 64
Sahlgren's Hospital, Sweden, 8
Sarcoidosis, 4
Sausage digits, in psoriatic arthritis, 58–59
Schizophrenic reactions, muscle disease and, 130
Schizophreniform syndromes, in systemic lupus erythematosus, 101
Sclerodactyly, 64
Sclerosis, progressive systemic, 317–319
Septic arthritis, acute elbow, 362–363
Seronegative spondarthritides, 64
Sex hormones, in osteoarthrosis, 203
Shigella, in Reiter's disease, 264, 271
Shigella dysenteria, 265, 278
Shigellosis
neurologic involvement in, 271–272
in Reiter's disease, 264–265
Shoulder joint
synovectomy of, 239–240
synovial cysts of, 336
Sjogren's syndrome, 4
Skin allergies, Catrix cream in, 293–298
Skin lesions, Reiter's disease and, 256–258
Spondarthritides, seronegative, 64
Spondylarthrosis, cervical, 163
Spondylitis
ankylosing, 64
in psoriatic arthritis, 60–61
in Whipple's disease, 87–88
Spondylopathy, ankylosing, 260–262
Spondyloepiphyseal dysplasia, 201
Sporadic dystrophy, 133
Staphylococcus aureus, 138
Stretching exercises, in arthritis, 354
Subchondral bone cysts, 343
Suppositories, Catrix, 297–298
Synovectomy
chemical, 236–237
clinical experience in, 236–243
of elbow joint, 239
follow-up in, 245–246
of foot, 240
of hip joint, 243
historical aspects of, 220–221

Synovectomy (*Continued*)
in juvenile rheumatoid arthritis, 237
of knee joint, 240–243, 244–246
in metacarpophalangeal joints, 237–238
nerve endings in, 230
pathophysiological aspects of, 228
psychological aspects of, 243–244
reason for, 230
of shoulder joint, 239–240
in wrist, 238–239
Synovial cysts, 323–343
of ankle, 338
clinical investigation of, 324–329
defined, 323
distended bursae in, 330–331
of feet, 338
of hip, 336–338
location of, 324
morbid anatomy of, 330–331
proximal interphalangeal and metacarpophalangeal joints involvement in, 335–336
of shoulder, 336
symptoms and signs of, 331–333
at terminal interphalangeal joints, 334–335
treatment of, 338
at wrist, 333–334
X-rays of, 325
Synovial fluid
leakage of, 343
in osteoarthrosis, 193
Synovial hypertrophy, 339
Synovial membrane, anatomy of, 221–224
Synovial microanatomy, 221–224
Synovial rupture, 337, 339–343
Synovial tissue
hypertrophic and hypotrophic, 226–228
iron deposits in, 234
regeneration of, 229–236
in rheumatoid arthritis, 219
Synoviocytes, 221
Synovitis, in osteoarthrosis, 191–192
Systemic lupus erythematosus
affective syndromes in, 100–101
birth order and, 40
black peoples' predisposition to, 5, 14–20
cellular inclusions in, 43–45
central nervous system manifestations in, 115–116
cerebrospinal fluid and, 111–125
corticosteroid therapy in, 104–105, 111–115
CSF C4 titer and, 117
cytoplastic inclusions in, 43–44
diagnostic criteria in, 3–4
epidemiological data in, 1, 6–7
ethnic differences in immune response in, 26–32

Systemic lupus erythematosus (*Continued*)
ethnic groups in, 5
experimental protocols in, 105–106
familial and genetic factors in, 36–43, 50
histocompatibility antigens and, 40–43
hypergammaglobulinemia in, 36
immune response in, 26–32
immunoglobulin levels in, 45–47
individual psychiatric syndromes in, 101–103
life expectancy and pregnancy in, 34–36
life expectancy vs. race in, 32–34
longitudinal personal observations and case histories in, 103–105
Malmo study in, 38–39
Mantoux reaction in, 30–32
migration and, 24
mixed syndromes in, 101
morbidity and mortality trends in, 7–10
muscle diseases and, 136
in New York City, 32–34
"onion skin" splenic lesions and, 3
organic brain syndromes in, 101
patient characteristics in, 97–98
population at risk in, 4–6
pregnancy and, 34–36
psychiatric observations in, 95–125
psychiatric syndromes in, 113–125
psychopathology in, 95–125
Puerto Rican susceptibility to, 5, 20–23, 32–34
Reiter's disease and, 279
reporting of, 3
rheumatoid factors in, 185
sample characteristics in, 118–120
schizophreniform syndromes in, 101
socioeconomic factors in, 23–26
specific rates by age, sex, and race, 10–14
syndromes and symptoms in, 107
systemic manifestations in, 4
twin studies in, 36–39
variable symptoms in, 106–107
viral antibodies in, 45–48
wire-loop glomerular lesions in, 3

Thrombocytopenia, 4
Tingling, in arthritic fingers, 292
Traction, in arthritis, 353–354
Trichophyton mentagrophytes, 62
Trichophyton rubrum, 62
Twin studies, in systemic lupus erythematosus, 36–39

Ulcerative colitis, Catrix-S in, 312–316
Ulnar nerve, anteposition of in Dupuytren's contracture, 172–173
Ultrasonic therapy, in Dupuytren's contracture, 169–170
Urethritis, 253–254, 274
Reiter's disease and, 258

Vater-Pacini corpuscles, in Dupuytren's contracture, 161
Venereal Reiter's disease, 254
Veterans Administration, 14
Villi, in rheumatoid arthritis, 224–225
Viral antibodies, in systemic lupus erythematosus, 45–48
Vitamin E deficiency, myopathy and, 144
Volkmann's contraction, 159

Waaler-Rose test, 185
Whiplash injury, 358
Whipple's disease
anemia in, 84–85
arthralgias and arthritis in, 82–87
associated findings in, 88
autopsy data in, 88
bacterial invasion in, 90
diarrhea in, 79–80
differential diagnosis in, 91
etiology of, 79–81, 90–91
immunoglobulin levels in, 90
incidence of, 79
joint changes in, 79–91
joint fluid in, 88–89
laboratory and X-ray findings in, 89
lymphadenopathy and, 79
rarity of, 79, 90
signs and symptoms in, 79
spondylitis and, 87–88
Wilson's disease, osteoarthrosis and, 200–201
World Health Organization, 178
Wrist
synovial cysts at, 333–334
synovectomy of, 238
Wrist stabilization, in arthritis, 357

Zoster viruses, 145

Seminars in
ARTHRITIS AND RHEUMATISM

CONTENTS OF VOLUME III

NO. 1

SLE—PSORIASIS—WHIPPLE'S DISEASE

The Epidemiology of Systemic Lupus Erythematosus ..... *Morris Siegel and Stanley L. Lee* 1
Psoriatic Arthritis ..... *J. M. H. Moll and V. Wright* 55
Joint Changes in Whipple's Disease ..... *Michael E. LeVine and William O. Dobbins III* 79

NO. 2

PSYCHOPATHOLOGY IN SLE

Psychopathology in Systemic Lupus Erythematosus. I. Psychiatric Observations ... *Max Baker* 95
Psychopathology in Systemic Lupus Erythematosus. II. Relation to Clinical Observations, Corticosteroid Administration, and Cerebrospinal Fluid C4 ..... *Max Baker, Nortin M. Hadler, John N. Whitaker, David L. Dunner, Robert D. Gerwin, and John L. Decker* 111
Muscle Diseases in Rheumatology ..... *W. Jeffrey Fessel* 127
Dupuytren's Contracture: A Review ..... *Jouko A. Viljanto* 155
Rheumatoid Factors in Families ..... *J. S. Lawrence* 177

NO. 3

OSTEOARTHROSIS—SYNOVECTOMY—REITER'S

The Etiology and Pathogenesis of Osteoarthrosis: A Review *Peter Lee, Patrick J. Rooney, Roger D. Sturrock, Alistair C. Kennedy, and W. Carson Dick* 189
Synovectomy in Rheumatoid Arthritis: A General Review and an Eight-Year Follow-up of Synovectomy in 50 Rheumatoid Knee Joints ..... *Ian F. Goldie* 219
Reiter's Disease: A Review With Special Attention to Cardiovascular and Neurologic Sequellae *Armin E. Good* 253

NO. 4

BIOLOGICAL ACTIVITY OF CARTILAGE

The Biological Activity of Bovine Cartilage Preparations *John F. Prudden and Leslie L. Balassa* 287
Synovial Cysts and Juxta-articular Bone Cysts (Geodes) ..... *N. J. Gerber and A. S. Dixon* 323
Essentials of Physical Management and Rehabilitation in Arthritis ..... *Robert L. Swezey* 349
Colchicine ..... *Stanley L. Wallace* 369
Indexes 382
